

THE AC WORKSHOP: DAY ONE

Held at the Clinical Training and Education Centre (CTEC)
University of Western Australia, Hackett Drive, Nedlands.

PELVIC ANATOMY	
07:45 – 08.00 am	Arrive and register (coffee/tea available)
08.00 – 08.30 am	Introduction and review of workshop objectives
08.30 – 09.30 am	Interactive lecture: surgical anatomy of the pelvis
09.30 – 09.45 am	Introduction to practical anatomy session
09.45 – 11.15 am	Surgical Anatomy: Professor Paul McMenamin Anatomy Prosection with specific learning tasks (8 participants) or Cadaver dissection (8 participants)
11.15 - 11.30 am	COFFEE
11.30 – 1.00 pm	- Anatomy prosection with specific learning tasks (8 participants) or - Cadaver dissection (8 participants) (NB: Participants to swap work stations after coffee break).
1.00 – 2.00 pm	LUNCH

SURGICAL SKILLS LABORATORY	
2.00 - 2.30 pm	Repair of enterotomy (demo + practice) using pig bowel
2.30 – 3.00 pm	Bowel anastomosis (demo + practice) using pig bowel
3.00 – 4.00 pm	Repair of cystotomy (demo + practice) using pig bladder
4.00 – 4.15 pm	COFFEE
4.15 – 5.15 pm	- Repair of ureteric injury (demo + practice) using simulated animal material - Use of Double J ureteric stent
5.15 – 5.45 pm	Repair arteriotomy using pig aorta (demo + practice)
5.45 – 6.00 pm	Review of day and evaluation

THE AC WORKSHOP: DAY TWO

Held at the Facility for Advanced Surgical Training (FAST)
University of Western Australia, Hackett Drive, Nedlands.

ANIMATE LABORATORY	
08.00 - 08.15 am	Arrival and change into surgical uniform
08.15 - 08.30 am	Outline of morning and sheep anatomy review
08.30 - 12.30 pm	Open surgery. - Dissection of ureter - Repair of cystotomy and enterotomy - Dissection of pelvic vessels - Bowel anastomosis - Formation of defunctioning colostomy - Repair of damage to vein and artery
12.30 - 1.00 pm	<i>Transfer to King Edward Memorial Hospital: Clinical Staff Lounge, 2nd Floor, A Block</i>
1.00 - 2.00 pm	LUNCH

COMPLICATIONS IN GYNAECOLOGICAL SURGERY	
2.00 - 5.30 pm	Intra and Post-operative complications: - Small group presentation and interactive discussion. - Emphasis on prevention and management of complications in gynaecological surgery ** IMPORTANT ** <i>It is essential that each participant prepare a case presentation of an 'interesting or difficult' complication they have experienced for discussion at this interactive session.</i> <i>This is to be sent in Microsoft Power Point format, comprising no more than four slides to hammond1@iinet.net.au no later than 4 weeks prior to workshop.</i>
5.30 – 5.45 pm	Review of day and evaluation
7.30 pm	WORKSHOP DINNER

THE ANATOMY OF
COMPLICATIONS
WORKSHOP

The Anatomy of Complications Workshop

(established October 2000)

*A two-day intensive
hands-on workshop about
the anatomy, prevention
and management of
complications in
gynaecological surgery.*

Perth, Western Australia

*February, May, July or
October 2009*

*Workshop Director:
Clinical Professor Ian Hammond*

The AC Workshop Registration Form

Yes, I would like to attend a workshop:

Please indicate your preference by numbering the boxes
(1 = 1st preference, 2 = 2nd preference, etc)

- 6th and 7th February**
- 15th and 16th May**
- 10th and 11th July**
- 30th and 31st October**

As places are limited and in high demand, please include a booking fee of \$220 with your registration form. The fee will be refunded in full if you are not successful in gaining a place. However, if you are offered a place, you will be requested to send the full amount (minus the booking fee) at least 16 weeks prior to the workshop date to confirm your place.

THE ANATOMY OF COMPLICATIONS WORKSHOP

For full workshop details, log on to:

www.acworkshop.com

This is a multi-disciplinary, educational workshop developed by the Departments of Gynaecological Oncology and Urogynaecology at King Edward Memorial Hospital in Western Australia in conjunction with the School of Anatomy and Human Biology, the Facility for Advanced Surgical Training (FAST) and the Clinical Training and Education Centre (CTEC) based at The University of Western Australia.

There is a **limit of sixteen (16) participants** per workshop so that each participant receives maximum benefit from the practical and discussion components.

Each participant will receive **10 PR&CRM points and 9 Category A meeting points** upon completion of a pre and post workshop on-line anatomy quiz and by attending the two full days of the workshop. If you do not complete the pre and post workshop on-line quiz, you will **not** receive the points related to anatomy, but you will receive **5 PR&CRM points and 14 Category A meeting points**.

Also approved for an additional **10 – 15 Practice Review points** on completion of PR activity worksheet available from RANZCOG.

COST

\$AUD2200.00 plus \$220.00 GST

(includes registration and workshop attendance, refreshments, workshop dinner and an instructional DVD and CD that will be sent to attendees prior to each workshop)

Credit Card:

VISA, Mastercard and Bankcard accepted

Cheques:

Please make payable to:
WCHS Anatomy of Complications Workshop Trust

This workshop arose from a 'needs analysis' and was developed by Ian Hammond and John Taylor, with input from our specialist colleagues. The main objective is the development of skills and the improvement of surgical practice. This is an intensive practical surgical procedural workshop. It is our experience that the participants will acquire a new range of surgical solutions. As you can see from the program the workshop is demanding.

There will be 8 trainers at each session and 16 participants. Participants will work in pairs and these 'pairings' are rotated at each session to allow for maximal interaction.

The program has been structured in a graduated fashion starting with clinically relevant surgical anatomy, moving to surgical procedures and then further practice of procedures in the animal laboratory. The final session allows for a stimulating interchange between the participants and faculty that helps us all to understand how best to manage and hopefully prevent the complications which occur as part of our routine practice in obstetrics and gynaecology.

INFORMATION FOR INTERSTATE TRAVELLERS

The campus of the University of Western Australia is located in Crawley, a short 5-10 minute drive from the city centre of Perth.

Suggested accommodation:

- Major hotel accommodation in the city.
- Kings Park Motel, Thomas St, Subiaco
(Reservations freecall in Aust. 1800 655 362)
- Quest Apartments, 222 Hay St, Subiaco
(08) 9380 0800
